

When I was a youngster growing up in this beautiful country, we constantly heard how lucky we were not living in a communist country, "in Russia they even control the airways and control what the people are viewing", sound familiar? that is what we learned as children.

And now you are allowing the Sinclair Broadcast Group to do the same thing to us, I call this propaganda, our wonderful country is becoming more and more a controlled country and some of it is not very good for any of us.

I personally know a man who served on the swift boats with John Kerry. He is a local fellow, very honest and has been swamped by calls from the vets against Kerry with offers to tell his story if of course it conflicts what John Kerry says. Well his story is that John Kerry told the truth and it all happened as he said, and because of the character of this man I choose to believe him.

And I do not believe that a corporation should be able to dictate to the American public just because they own so many stations.

You, the FCC, have an obligation to the tax payers to not allow this to happen. With all

the attention on
taxes, somehow it
is forgotten that it
is the average
American citizen who
pays the taxes for
agencies like you to
operate.

Show us that we are
living in a free
country and not one
owned and controlled
by a few wealthy
businessmen, do not
allow Sinclair to
push their view on
us.

Thank you so much
for your kind
consideration to
this request.
